Emma's highlight:

Emma received lots of donations, but not all of these were from friends and family. She set up an Instagram account to share photos of her fundraising and received lots of anonymous donations from her followers!

Emma's advice:

"I definitely recommend using your page as blog, with updates of the events you organize and the amount you raise. Speak to people - message friends, family and old schools. Get up for those early mornings for street collections: in Chichester I managed to get £250 in 3 hours! Always smile and chat to people and you'll be amazed how much money you raise."
