

What are the symptoms of meningitis and septicaemia?

Meningitis and septicaemia are very serious infections which can kill in hours. Knowing the symptoms could save someone's life.

Remember:

- > Symptoms can appear in any order.
- > Not everyone gets all symptoms.
- > Don't wait for a rash to appear: a very ill person needs medical help even if there are only a few spots or no rash.
- > **Trust your instincts and always get medical help fast.**

Symptoms with a * are more specific to meningitis and septicaemia and less common in milder illnesses.
